PERSONAL STATEMENT

Full-Stack Developer with hands-on experience in designing and developing dynamic web applications and software. My background combines technical expertise in Java, Python, JavaScript, React, and Kotlin with practical experience in UI/UX design, database management, machine learning and RESTful API integration. I thrive in collaborative, cross-functional environments, applying Agile methodologies to deliver scalable and maintainable solutions.

PROFESSIONAL EXPERIENCE

CSE Connect June 2025 – August 2025

Full-Stack Developer

- Delivered a fully functional React-based event seating application by collaborating with a cross-functional team, improving efficiency in event management
- Designed modern, user-friendly UI layouts in Figma that enhanced usability and aligned with current design trends, receiving positive feedback from stakeholders
- Developed reusable and scalable React components using Agile methodologies, which improved code maintainability and accelerated project delivery

Kingston University September 2024 –March 2025

Academic Mentor

- Collaborate with faculty during workshop sessions, ensuring students' learning objectives are met
- Supported students with targeted feedback that strengthened engagement and helped improve academic progress during workshop sessions

Delivery Management Ltd August 2022

Machine Learning Engineer

- Trained and deployed machine learning models on embedded systems to support project objectives

Henson IT Solutions July 2022

Software Developer

- Built a 2D platformer game in Unity using C#, implementing player movement, collision detection, and interactive game mechanics
- Gained hands-on experience with web and application development workflows

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Kotlin, C#, PHP, Node.js
Frontend: React, React Native, HTML, CSS, SCSS
Backend: REST APIs, Express.js
Databases: MySQL, RDBMS
Tools: Git, Figma, Unity
ML: Pandas, scikit-learn, Matplotlib
CS Fundamentals: OOP, DSA, Agile, Networking, Virtualisation

EDUCATION

Kingston University September 2023 - May 2026

BSc Computer Science

Harris City Academy Crystal Palace September 2021 - 2023

A-Level Computer Science, Mathematics, Physics

CERTIFICATIONS & TRAINING

- DataCamp - Introduction to Python
- LinkedIn – Learning REST APIs
- LinkedIn - JavaScript Essential Training
- LinkedIn – OpenAI API: Agents

LANGUAGES

- English
- Italian
- Bengali
